kokoon™

ITALIAN BATHROOM FURNITURE

kokoon™

ITALIAN MADE BATHROOM FURNITURE
BUILT TO WITHSTAND LIFE

Kokoon is a customisable collection of Italian-made bathroom furniture with a focus on maximising storage space in your bathroom. Our collection combines premium materials with timeless design for a bathroom that will suit your style and withstand the rigors of everyday life. All of our vanities and storage furniture come with a 10 year product guarantee to ensure peace of mind.

QUALITY 10 Year GUARANTEE

Shown Right: Kokoon Quantum 140cm cabinet in Matte White with Mineralmarmo® left hand washbasin top, Specchiera 60cm mirror and Matte White shaving cabinet.

EXCLUSIVE PPL SYSTEM

A NEW WAY TO INSTALL. SIMPLY POSITION, PLACE & LEVEL.

POSITION

Using the templates provided, locate your secured areas and simply fix the structural brackets in position. The brackets allow for up to 5mm variance left to right. It is always recommended that a stud wall is the anchor point and not to rely on sheeting alone.

PLACE

Once the brackets are secured to the wall, place the cabinet on the brackets ensuring the locating disks are nestled into the cradle on the bracket.

LEVEL

The cabinet is now on the wall, place a spirit level on the back and adjust the vertical thread with a hand screwdriver (not a cordless drill) until the cabinet is level. Once the cabinet is level, screw in the secure thread also with a hand screwdriver until it is flush with the wall. Finish off the cabinet install by threading in the red lock nut to hand tight only.

Now simply place your choice of top; either Stone, HPL or Mineralmarmo® and you have a beautiful piece of Italian bathroom furniture.

Q100 - Total peace of mind

Our Q100 system ensures that all goods are quality inspected both when leaving the factory in Italy and upon arrival into our Brisbane warehouse. This can give you the confidence that you are backed by quality product.

Perfectly integrated into the aluminium structural profiles, the brackets guarantee ample height and depth adjustment. All come with a secure suspension system for smooth drawer operation.

ELEMENTS COLLECTION

HPL®

BEHIND OUR HIGH PRESSURE LAMINATE

High Pressure Laminate or HPL was one of the growing trends to come from Salone Del Mobile in Milan. It is the future for laminates offering unparalleled strength that allows a lot more flexibility in design. Improvements to HPL means we can offer a timber look never experienced before, realistic in both look and feel.

This development in laminates introduces a new timber look slab top with integrated washbasin that eliminates maintenance issues associated with natural timbers.

QUALITY 10 Year GUARANTEE

Standout benefits of HPL tops in our Elements range:

· Water resistant and perfect for wet areas

· No warping, swelling or delaminating

· No mould or mildew from excessive moisture in the room

· Exceptional resistance to heat and moisture

· Fade resistant

· Highly resistant to scratching, impact, scuffing, stains and general wear and tear

· Suitable for use with standard household cleaners

· Unlike natural timber, it requires no ongoing maintenance including sealants or oils for use in bathrooms or laundries

Shown below: Kokoon Elements 140cm cabinet in matte white with HPL slab top and dual shaving cabinets.

MINERALMARMO®
THIN-EDGED AND INTEGRATED BASIN TOPS

Mineralmarmo® is a glossy white mineral marble composed of a natural mineral base combined with a small percentage of polyester resin. The Mineralmarmo® surface is coated with a technical coating film, which is able to resist temperatures of up to 120℃.

This incredibly durable material is highly resistant to scratching, impact, scuffing, stains and general wear and tear. Any imperfections can be easily removed with a slightly abrasive sponge.

Mineralmarmo® is offered in both a thin-edge top, suitable for vessel basins, or as an integrated washbasin for a smooth, seamless design.

Shown above: Kokoon Quantum 140cm cabinet in Matte White with left hand Mineralmarmo® integrated washbasin top.

MODULAR JOINING SYSTEMS

Can't find the exact size cabinet for your project? Simply combine any 2 Kokoon cabinets with the M symbol (see icons page) to create your desired length. All modular cabinets range from 70-120cm and come standard with a centre basin drawer configuration. This makes the range ideal for doubling the cabinet length for use with Kokoon Stone series and some Mineralmarmo® models. Please check each product for the M icon when specifying.
